Blow Out - 1/1

Interprété par Radiohead.

In my mind [??]
All the time killin' what I feel
And everything I took

All I took while she [??]
All I took while she was crying

Just a start...

And everything I took

All I took while she [??]
All I took while she was crying

I infuse just in case I blow out
I am plain just in case I crack up

Everything I took turns to stone

All I took while she [??]
All I took while she was crying
