

I Was So Lucky - 1/1

Interprété par Roxette.

It's no secret I've been waiting but I didn't expect this.
Nothing will remain. Nothing stays the same after you came.
It's no secret I've been starving. I never felt anything for years.
I sat up all night just to watch your smile when you're sleeping.
I was so lucky you came by and turned a different corner.
I could've been somewhere else. You could've passed by, could've passed by.
Come on and sail the sea with me. Come on, let's go around the world.
Maybe find a flat or a canyon house for the season.
I was so lucky you came by and turned a different corner.
It could've been someone else you had in mind. I was so lucky you found me.
My rags turned gold and silver. I could've been somewhere else.
You could've passed by, could've passed by. What would you make of this, my baby?
The sun through the trees. Is there a better place to be?
I was so lucky you came by and turned a different corner.
It could have been someone else you had in mind, oh my.
I was so lucky you picked me. My trash turned to silver.
Yea, I could have been somewhere else. You could've passed by, could've passed by.
