

I'm sorry - 1/1

Interprété par Roxette.

The first time we met time stood still. You left me breathless Suddenly speechless.
Within the hour we were one Two total strangers kissing the moonlight.
Oh, you know I'm sorry I had to go, I'm really sorry it had to die
I'm really sorry I made you cry. Cry.
We fell in love between the nights of too many lovers and too many teardrops.
And fate won't resist some satin sheets, I was so helpless totally ruthless.
Oh, you know I'm sorry I had to go, I'm really sorry you're hurt inside
I'm really sorry I made you cry. Cry, cry.
Love is lifting you up and draggin' you down. Makes you go round and round and round
Time makes a stop then it's all gone. Funny how memories keep lingering on.
