

You've Got To Live A Little - 1/1

Interprété par Texas.

Have you still got the illusion
Of what's lying ahead
Then you'd still have your innocence
And days wouldn't seem so bad

But I've always wondered
Why you've never grown
But now, I know
You gotta take a little time for yourself
You gotta live a little life on your own
You gotta take a little time for yourself
It's just what you're needing

Storms always make you happy
But they hide everything inside
Make believe that they're soft to touch
Then they blind you with their light

That has always made me wonder
Why you've never grown
But now, I know
You gotta take a little time for yourself
You gotta live a little life on your own
You gotta take a little time for yourself
It's just what you're needing
