

## Fade Away - 1/1

**Interprété par Texas.**

With every little smile do you know me better  
You know I'm never what I seem  
Cause I don't worry about the future

My days they pass just like a dream  
Are you scared of what you're seeing  
Does it make me seem so cruel  
And now I'll ask you if I hurt you

That's just something that I do  
If you don't listen to me  
You'll stay the same  
And you're just gonna fade away

Listen hear the secret in my voice  
Are you so gone that you can't hear  
Scared I've forgot you for no reason  
Maybe that's what you can't bear

Then give me more than words and gestures  
Give me something I can keep  
That's how you get to love forever  
That's why you've gotta try and see

If you don't listen to me  
You'll stay the same  
If you don't listen to me  
You'll stay the same

If you don't listen to me  
You'll stay the same  
And you'll fade away
