

Saint - 1/2

Interprété par Texas.

I'm taking my time
I'll fix it, don't worry now
I'm needing you there
Make sure that you're coming too

All of my life
Is all I give you here
The meaning of me
Is something to pursue

You think I'm a saint It's in your pretty head Stretched out like a saint now I love you to death

Catch another dream now
We can find them somehow
I know that there's a boy inside the man
Catch another dream now
Take all we are allowed
For I know that there's a man inside the boy

Grown ups don't know How to dream anymore Their heads in the sand And they choose to ignore it all

All of my life
Is all I give you here
The meaning of me
Is something to pursue

You think I'm a saint It's in your pretty head Stretched out like a saint now I love you to death

Catch another dream now
We can find them somehow
I know that there's a boy inside the man
Catch another dream now
Take all we are allowed
For I know that there's a man inside the boy

You think I'm a saint It's in your pretty head Stretched out like a saint now
