

## Into my privacy - 1/1

Interprété par Ophélie Winter.

CHORUS : I feel your pryin' eyes all over me  
U get so excited by the things U should not see  
U been snoopin' round my dirty laundry  
Peepin' thru my window, into my privacy  
I know U're watchin', I know U're hidin'  
I can't keep secrets when walls have ears  
Oh! U got me spooked yeah,  
got me jumpy  
Cuz' I know U're thru your 2 way mirror  
U look me up, U look me down  
Do I leave a good impression  
I wanna know do I satisfy  
Do I fit in your obsession  
U hear my pillow talk, see my stocking run  
Wait for me t trip just one slip of the tongue  
I heard a floor board creak, I hear your camera whine  
Will I see my picture in a checkout line  
U dig the dirt, U kiss and tell  
Don't worry if it's not the truth  
To make it more sensational, U can fabricate the proof  
CHORUS  
I'm goin' down with my baby and we're in a groove  
With your infrared U're watchin' my every move  
Tryin' to trip my game, messin' with my brain  
I pay the price of fame, did your mother tell U that it's  
Rude, stickin' your business into mine  
U're in the shadow where the sun don't shine  
U bury your soul just to get your big headline  
CHORUS
