

## A world without you - 1/1

Interprété par Emma Bunton.

CD A girl like me

I know that you can hear the rhythm  
of the rain

Although we're miles apart I know you feel my pain

I try to be so strong, I try to carry on

But since you left the sun don't seem to shine

My tears are falling on the words you wrote to me

I wish that somehow they could take me where I wanna be

It seems so long ago, you held me when I cried

For now I just pretend you're by my side, oh-oh yeah

Everything that I touch turns to blue

When I'm living in a world without you

I'm going crazy baby, I am missing you

Can't imagine all I go through

When I'm living in a world without you

I'm not alone I know that you can feel it too

La, la, la, la, la, la, la, la

I try to watch a movie but you're all that I can see (all that I can see)

In my dreams I know I always see you constantly

But then a dream comes to an end and I'm alone

And I can't seem to let this feeling go, whoa-oh baby

Everything that I touch turns to blue

When I'm living in a world without you

I'm going crazy baby, I am missing you

Can't imagine all I go through

When I'm living in a world without you (can't live without you)

I'm not alone I know that you can feel it too

La, la, la, la, la, la, la, la (la la la la)

La, la, la, la, la, la, la, la (la la la la)

La, la, la, la, la, la, la, la

I try to be so strong, I try to carry on

But since you left the sun don't seem to shine, whoa-oh-oo

Everything that I touch turns to blue

When I'm living in a world without you (I'm going crazy, missing you baby)

I'm going crazy baby, I am missing you

Can't imagine all I go through

When I'm living in a world without you (a world without you)

I'm not alone I know that you can feel it too La, la, la, la, la, la, la, la (what can I do without you baby)

Can't imagine all I go through

When I'm living in a world without you (living without you)

I'm not alone I know that you can feel it too

La, la, la, la, la, la, la, la (la la la la)

La, la, la, la, la, la, la, la (la la la la)

La, la, la, la, la, la, la, la I'm going crazy missing you baby

Living without you (living without you)
