CD I oughtta give you a shot in the head for making me live in this dump

She does

raindances when she's feeling dry

North train track woman got her arms in the sky

And she's moving to Arlington as soon as she can

She got blood in her eye stones in her sky and she walks like

a man

Arlington girl Arlington girl

She says she does she does all she pleases

Dancing on tomb stones

Black dirt and old bones

Some say she's hangin'

Just waiting around

For JesusShe does

raindances and she knows the score

All the back alley banjo boys lie down and die on the floor

Sewing stories for Romans on yellows and blues

Expensive suites and dirty teeth

There sand in her shoes

Arlington girl Arlington girl

She says she does she does all she pleases

Dancing on tomb stones

Black dirt and old bones

Some say she's hanging

Just waiting around

For JesusInsatiable sins

well sometimes they turn out all right

Only cursed girls have this blessing of foresight

So to stop herself from going insane

She rinses her soul off

Down in the cold

Blue rain
