

Sista, sista - 1/1

Interprété par Beverly Knight.

Sittin' alone with a head
full of empty
playing with time that
she just doesn't have dreamin' that life is a stranger
that brings you flowers Prayin' the dream is real
as she feels it is.
Dreams bring you anything

hoping that chance could bring you to the other side wanting a future there
feeling that love affair with the other side
sista sista better run better
fly better weather on the other side
sista sista stand up tall
don't you ever
fall sista sista can't you hear my call over the
bridge turning right at the
stop sign lives a woman who thinks
as you do watchin' the world
thru the glare of a T.V. screen wonderin' what's
round the corner for you I would give
anything knowing that chance could bring me to the
other side soon as my thoughts are
clear one day I'll see you there on the
other side
