

## Angel in disguise - 1/1

**Interprété par Brandy.**

CD Never say ever  
Angel in disguise she was  
But somehow you fell for her  
Until she broke your heart that day  
And left you in the rain  
But still I love you

I found it quite strange  
The way you said her name  
And when you look in her eyes  
I see the lust you can't deny  
It's more to this than what you say  
Cause in your sleep you called her name  
You say she's just a friend  
I knew right then cause the rain began

She seemed so familiar the day that I met her  
Who was she foolin' I had a clue what she was doin'  
Thoughts of suspicion brought to my attention  
I fell in her game I'm so lost  
Please stop the rain

And when my music stops  
And when my tears drops  
And when the rain ends  
My heart will beat again
