

## The Bright Young Things - 1/2

**Interprété par Marilyn Manson.**

We'll be the worms in your apple pie.  
Fake abuse for our biles blacken our own eyes.  
Grass isn't greener on the other side  
We'll set it on fire, and we have no reason why

Set fashion, not follow  
Spitfantry all not swallow  
Set fashion, not follow  
Spitfantry all not swallow

You know that I don't mind being everything that's bad  
You know that I don't mind being everything that's bad

We know who we are and what we wanna say  
And we don't care who's listening  
Ae don't rebel to sell, it just suits us well  
We're the bright young things

Got my villain necktie, and I'm alph hi-fi\*  
So sharp, I'm bleedin' from my Judas hole  
Arch Dandy, no good to get a metaphor crash  
Formal sponsor with the groan box in the meat show

Set fashion, not follow  
Spitfantry all not swallow  
Set fashion, not follow  
Spitfantry all not swallow

You know that I don't mind being everything that's bad  
You know that I don't mind being everything that's bad

We know who we are and what we wanna say  
And we don't care who's listening  
Ae don't rebel to sell, it just suits us well  
We're the bright young things

Crashing the ether, we got the lighter stereotype  
Even neophytes deep seed your pro-life\*  
We don't need to move a single parabol\*  
We're so beautiful and damned  
life

Perpetual rebellion with absolutely no push  
Perpetual rebellion with absolutely no push  
Perpetual rebellion with absolutely no push  
Perpetual rebellion with absolutely no push

## The Bright Young Things - 2/2

Motherfucker, remember what you used to be?  
Somebody that could fucking impress me

We know who we are and what we wanna say  
And we don't care who's listening  
Ae don't rebel to sell, it just suits us well  
We're the bright young things

We know who we are and what we wanna say  
And we don't care who's listening  
Ae don't rebel to sell, it just suits us well  
We're the bright young things

You know that I don't mind being everything that's bad
