

## If you still hate me - 1/1

Interprété par Ill Niño.

The feelings you are breaking  
Are feelings I was faking  
My eyes begin to shut, my life's a bitch  
Want me to cut you up ?  
Your life is one big shout out  
You think I'm fake, you are a snake

These are my fears

I fear if you still hate me, you're thinking of me  
I'm here and I still don't know, I feel so low now

You make my life so aching  
My every thought you're breaking  
My ears begin to bleed, words you're riffing  
I'm here to shut you up !  
Your life is one big fuck up  
You think I'm fake, you're a snake

These are my fears

I fear if you still hate me, you're thinking of me  
I'm here and I still don't know, I feel so low now

I cannot see how you can be  
So fucking hateful of my ways  
From all these thoughts I will not stray  
The hate I feel today

My life is not something you think you can run  
You should have learned  
This is the reason we're done  
I hate your ways and everything that you say  
I wish you dead !!!
