

Make it good - 1/1

Interprété par A1.

When you're weary
When you're down and out
Lay your hands on me

I count my blessings
I think of all I have
She never thought the about it
Then threw it all away
Left it all to chance
She tore down fences
Now it seems so wasted
Wish she could turn back time

Refrain
Now she's down on her knees to pray.
Begging please, make it good,
make it good somehow
She will do what it takes to chance
Someone please, make it good,
make it good somehow
Someone please

When you're weary
When you're down and out
Lay your hands on me

She had a vision
Time to make a stand
For all she used to be
To turn a life around
To take back yesterday
Is never easy
When you're on your own
It seems impossible, so

Refrain

Welcome to your revolution
What you dream is what you see
There's no rules, no regulations
Let the music set you free

Refrain

When you're weary
When you're down and out
Lay your hands on me
