

## Becoming i - 1/1

Interprété par Unloco.

Sunlight warms my face  
It's hard to take in  
An overwhelming grace  
From the way that I live  
So close to you  
I feel so ashamed  
This must be new  
'Cause I've fallen again  
The stench smells so real  
Like I've been here before  
Emotions will kill  
The life I've always known  
Because of their lies  
The world seems to change  
But since you've arrived  
I feel no more pain  
'Cause I have become the one thing I hate  
I have become the smile on your face  
There's no need to save the me that I've made  
'Cause I have become the one thing I hate  
The unwanted things  
That breathe in my skin  
Have filled all the void  
In which I live in  
And every time you bounce  
I feel so alive  
So many ways to count  
The many times I've died  
'Cause I have become the one thing I hate  
I have become the smile on your face  
There's no need to save the me that I've made  
'Cause I have become the one thing I hate  
So close to you, so close to you
