

## Grace - 1/1

### Interprété par Erasure.

Looking in the papers makes me sorry to be human  
A little ray of hope won't hurt at all  
A price on every head, and it's cheaper when you're dead  
The quality of life may have to fall

Muffled voices  
World in action  
Stir the peaceful  
Need for longing

I cannot describe the fear inside my heart  
I hereby do swear to live my life in accordance with grace

Guess it's human nature to be cruel and to be heartless  
It's no excuse to shoot him when he's down  
Crawl in on your knees and then bite the hand that feeds  
The cages throw their shadows 'cross the ground

Where's the sense in senseless violence  
Hear the silence too forgiving

I cannot describe the fear inside my heart  
I hereby do swear to live my life in accordance with grace  
[Grace]  
[Grace]

Press your hands into the pavement  
Bathed in glory, here's your moment

I cannot describe the fear inside my heart  
I hereby do swear to live my life in accordance with grace

I cannot describe the fear inside my heart  
I hereby do swear to live my life in accordance with grace [Accordance with grace]

I cannot describe the fear inside my heart  
I hereby do swear to live my life in accordance with grace
