it's happening soon
it's happening soon
it's scent has been blowing in my direction

to me it is new
to me it is new
and it's not gonna change for anybody

and it's gonna be our last memory
and it's led me on and on to you

it's got to be here
it's got to be there
it's got to be now or it won't happen

to me it is strange
this feeling is strange
but it's not gonna change for anybody

and it's gonna be our last memory
and it's led me on and on to you

accuse me, trust me
I never knew
that you were the one
you were the one

and it's gonna be our last memory
and it's led me on and on to you
