

## Before you love me (album alsou) - 1/2

Interprété par Alsou.

Giving a little sign  
Giving a little something  
My mind's only set one thing  
I need you in my life

I want it so bad, baby, I can taste it  
Got a chance I don't wanna waste it  
I wanna do it right

Before you love me  
There's something that your heart should know,  
If you want me, baby, it's body, sex, mind and soul,  
Yeah, I want it all.

When you're near my body starts shaking  
No fears, only heart's breaking  
I'm about to lose control

Oh last night when I saw you leaving  
My eyes couldn't stop believe it  
Do you have to go?

Before you love me  
There's something that your heart should know  
If you want me, baby, it's body, sex, mind and soul  
I want it all.

Before you love me  
There's something that your heart should know  
If you want me, baby, it's body, sex, mind and soul  
I want it all.

I want it all  
I want it all  
I want it all

I want it so bad, baby, I can taste it...

I won't take nothing less...

[It's something your heart should know]  
If you want me, baby, it's body, sex, mind and soul  
I want it all.

Before you love me  
There's something that your heart should know  
If you want me, baby, it's body, sex, mind and soul

## Before you love me (album alsou) - 2/2

I want it all.

Before you love me

There's something that your heart should know

If you want me, baby, it's body, sex, mind and soul

I want it all.
