

Turn the page - 1/1

Interprété par Aaliyah.

A special smile, a certain touch
I never had a love that I loved so much
When I look back, you're everywhere
Turn the page, you were there

My every best friend, my summer day
My only someone to depend on
When I lost my way
You came and answered my every prayer
Turn the page, you're were there

What would I do if some strange morning
I opened up my eyes to find you gone
I can't imagine how I would survive it
I finally got the reason to go on

My one sure thing, my solid ground
All I ever wanted was the love that we found
When I look back, you're everywhere
Turn the page, you're were there, yeah

What would I do if some strange morning
I opened up my eyes to find you gone
I can't imagine how I would survive it
I can't imagine how I would go on

A special smile, a certain touch
I never had a love that I loved so much
When I look back, you're everywhere
Turn the page, you were there
You came and answered my every prayer
Turn the page, you're were there
