

## Time to relax - 1/1

Interprété par The Offspring.

Ahhhhh....

It's Time to relax

And you know what that means

A glass of wine

Your favourite easy chair

And of course

This compact disc playing on your home stereo

So go on and indulge yourself

That's right

Kick off your shoes

Put your feet up

Lean back and just enjoy the melodies

After all

Music soothes even the savage beast
