

Drowning - 1/2

Interprété par Crazy-Town.

Everything is so complex
Every day is like a test full of obstacles,
That seem almost impossible

And I'm thinking just another breath
Not a minute left
How long have I been drifting

Pass the glass pipe Hit the flashlight
Now break it
People say I'm a star but I still think I'll never make it

And I'm thinking
Just another prayer
Not a second left
I feel there's something missing

CHORUS:

Sometimes I hate that chaos surrounds me
When all the answers that I seek are around me
Am I drowning
Am I fading away
Or am I living up to all your dreams that made me this way
Am I drowning (x4)

I've been to hell and back,
Looking for the answers to life
Looking at myself trying to get things right

And I'm feeling,
Just another breath
Not a minute left
I feel the darkness lifting

There was a time that I questioned,
If I'd ever be alright
Running getting high,
Staying trapped by sleepless nights

And I'm thinking
Just another breath
Not a minute left
I feel there's something missing

I'm running from myself and all the things I don't like
Living every night like it's the last night

Drowning - 2/2

And I'm thinking
Just another prayer
Not a second left
I need to stop resisting

CHORUS

Drowning in the drama,
Lost in the lies
Trapped by the currents of life
Caught in the riptide
repeat x4

Am I drowning (x4)

CHORUS
