

## Over now - 1/1

### Interprété par Busted.

Here we go take a bow  
Because we're over now  
You were not there for me  
When I needed you and honestly

I think I loved you more  
It that's possible  
I think I loved you more

It's over now and I can't save you  
Some things are better left unsaid  
And all the promises I made were so stupid  
Maybe we'll be able to be friends  
It that's possible

Two days gone I'm alright  
But you can't sleep at night  
What is it you don't like  
And I'm happy now

I was playing with your head  
And I close the door  
I was cheating when I said  
I love you more

It's over now and I can't save you  
Some things are better left unsaid  
And all the promises I made were so stupid  
Maybe we'll be able to be friends  
It that's possible

It's over now and I can't save you  
Some things are better left unsaid  
And all the promises I made were so stupid  
Maybe we'll be able to be friends  
It that's possible  
It that's possible  
It that's possible  
It that's possible
