

## Piss it all away - 1/1

**Interprété par Puddle Of Mudd.**

What I feel it is real  
What I do it's the truth  
When I drink I can't think  
When I use I need more  
When you're weak I can't speak  
Close your eyes and taste this wine  
The cork removed less purified  
I throw away everything that you say  
Erase everything that you fake  
What I feel it's a sin  
Tell the truth do not lie  
Make a wish will it come true  
One way streets one track mind  
Open up and see the light  
One million ways to hypnotize  
I throw away everything that you say  
Erase everything that you fake  
Erase everything that you fake
