

Dammit, i change again - 1/1

Interprété par Offspring.

Hey, come inside
While I stand here acting bold
Can't stand to feel this way
Clear out the cobwebs in my soul
This time I turn around
And things have changed
Now I don't feel the same
Start a fight
I can't defend
One more time
Dammit, I changed again
Now I don't see
Things the way I did before
Can't stand to feel this way
Things important yesterday
Don't matter anymore
It doesn't make any sense
To feel so different day to day
Can't stand to feel this way
When nothing's changed except for me
