

All along - 1/1

Interprété par Offspring.

Deep inside secrets burning
I Should have known all the while what's true
I went along, to fool myself
Can't go on, I can't escape it
All along
I think I really knew
It was there in the words unspoken
All along
Still believed in you
Now I stand here betrayed and broken
Close my eyes from the burning
All along all the while it's true
Take it on, or turn your back
Either way, you can't escape it
