

## Fear and love - 1/1

**Interprété par Morcheeba.**

We always have a choice  
Or at least I think we do  
We can always use our voice  
I thought this to be true  
We can live in fear  
Extend ourselves to love  
We can fall below  
Or lift ourselves above

Fear can stop you loving  
Love can stop your fear  
Fear can stop you loving  
But it's not always that clear

I always try so hard  
To share myself around  
But now I'm closing up again  
Drilling through the ground

Fear can stop you loving  
Love can stop your fear  
Fear can stop you loving  
But it's not always that clear

I'd love to give my self away  
But I find it hard to trust  
I've got no map to find my way  
Amongst these clouds of dust

Fear can stop you loving  
Love can stop your fear  
Fear can stop you loving  
Love can stop your fear  
Fear can stop you loving  
Love can stop your fear  
Fear can stop you loving  
But it's not always that clear X4
