

King nothing - 1/1

Interprété par Metallica.

Wish I may Wish I might Have this wish tonight Are you satisfied?
Dig for gold Dig for fame You dig to make your name Are you pacified?
All the wants you waste All the things you've chased
And it all crashes down And you break your crown
And you point your finger
But there's no one around Just want one thing Just to play the king
But the castle crumbled And you've left with just a name

Where's your crown King nothing?

Hard and cold Bought and sold A heart hard as gold Are you satisfied?
Wish I may Wish I might You wish your life away Are you pacified?

All the wants you waste All the things you've chased

And it all crashes down And you break your crown
And you point your finger But there's no one around

Where's your crown King Nothing?

I wish I may I wish I might Have this wish I wish tonight

I want the star I want it now I want it all and i don't care how

Careful what you wish Careful what you say Careful what you wish
You may regret it

Careful what you wish You just might get it

Then it all crashes down And you break your crown
And you point your finger But there's no one around

And it all crashes down And you break your crown
And you point your finger But there's no one around

Where's your crown King Nothing?

Just want one thing Just to play the king But the castle crumbled
And you've left with just a name

Where's your crown King Nothing?

(Off to never never land)
