

Slow down - 1/2

Interprété par Alicia Keys.

Ooh baby
There's somethin I gotta tell ya
Pain that you should know
What's on my mind
Ooh baby
I'm feeling our situation
It's getting stronger
And we on it
I gotta take my time

See there's so much about you
That I want to explore
Physical attraction,
We just can't ignore it
But before we go too far
Across the line
Gotta really make sure
That I'm sure
Umm Umm

Slow down babe
Let's take our time
Slow down babe
If you don't mind (baby slow down)
Slow down babe
Before we make this move
Slow down babe (before we make this move)
Baby slow down
(I think it's really too soon)

Ooh baby
It's like I known you forever
My medulla oblongata
Is electrified
Oo oo ooh baby
Whenever we're alone together
I'm bout to explode
And it feels so right
I gotta take my time

See there's so much about you
That I want to explore
Physical attraction,

Slow down - 2/2

We just can't ignore it
But before we go too far
Across the line
Gotta really make sure
That I'm sure
Umm Umm

Slow down babe
Let's take our time
Slow down babe
If you don't mind (baby slow down)
Slow down babe
Before we make this move
Slow down babe (before we make this move)
Baby slow down
(I think it's really too soon)

See I know what is best
Cause I been here before
Gave myself to someone
For all the wrong reasons
But this time around
I don't wanna do that again
I just wanna make this the way
That i've dreamed of
So baby you got to

Slow down babe
Let's take our time
Slow down babe
If you don't mind (baby slow down)
Slow down babe
Before we make this move
Slow down babe (before we make this move)
Baby slow down
(I think it's really too soon)

Slow down
You got to slow down(X2)
Baby slow down
You got to slow down(X2)
You've got to slow down
