

When day turns into night - 1/1

Interprété par Busted.

Nobody's there when you get home
Your renting movies on your own
My photo's on your bedroom wall
You sit there waiting for my call

Refrain:

And I know I leave you on your own
And I need you to be strong
When I'm walking away
And I, I hate to say goodbye
It gets harder every time
What I feel
You feel inside
When the day turns into night

Another tired afternoon
Another dusty motel room
I hate the fact that you're not here
But now I'm counting down the days till I get there

Refrain (2)
