

Bring it on - 1/2

Interprété par Alistair Griffin.

Bring it on

It's lost is what you're thinking
You've even started drinking
And watching TV all day-long
Don't ever stop believing
Ideas that you're conceiving
Can't change the World or take it on

Don't believe a word they say
You've gotta make it your own way
This might be the answer to your prayers

Bring it on, bring it on
Tell your friends to come along
Raise your hands to the sound
Lose your mind and jump around
Turn it up, turn it on
Tell the World they got it wrong
'Cause my friend
It won't be long
So bring it on

Your boss thinks that you're lazy
Your friends all think you're crazy
Your boyfriend's left, the TV's gone
The edge is moving close now
But you're surviving somehow
If this is life then bring it on

And don't believe a word they say
You gotta make it your own way
Hold on tight 'cause here I go again

Bring it on, bring it on
Tell your friends to come along
Raise your hands to the sound
Lose your mind and jump around
Turn it up, turn it on
Tell the World they got it wrong
'Cause my friend
It won't be long
So bring it on

Bring it on, bring it on
Tell your friends to come along
Raise your hands to the sound
Lose your mind and jump around

Bring it on - 2/2

Turn it up, turn it on
Tell the World they got it wrong
'Cause my friend
It won't be long
So bring it on
