

Taste you (english version) - 1/2

Interprété par Melissa Auf Der Maur.

Oh my love, oh my love
I can't hear you my love
Tell me where have you gone ?
Oh my love, oh my love
I can't taste you my love
Tell me what have I done ?
Plug it in, so I can digest you
I will taste you

Far away, far away
I can't feel you today
I need healing my love
Appetite running fast
Following my gut
Turning up every rock
You're disappearing my love
I need louder than this
Please fill me up
Goof tidings I bring
To you and your sins
I'll forgive
Come to me, plug it in, so I can digest you
I will taste you
My appetite in that hole
Tempt you with it now
I will taste you

Please shake me and tug
I need shaking my love
Can't you be the one ?
I can't fake it my love
I need filling come on !
I need it louder than bombs

Come to me, plug it in, so I can digest you
I will taste you
My appetite in that hole
Tempt you with it now
I will taste you

Feel that movement my love ?
Pulling up from above
Are you listening love ?
My emptiness in a way
Is tempting
Guiding you from my gut
