

Taste you (english version) - 1/2

Interprété par Melissa Auf Der Maur.

Oh my love, oh my love
I can't hear you my love
Tell me where have you gone?
Oh my love, oh my love
I can't taste you my love
Tell me what have I done?
Plug it in, so I can digest you
I will taste you

Far away, far away I can't feel you today I need healing my love Appetite running fast Following my gut Turning up every rock You're disappearing my love I need louder than this Please fill me up Goof tidings I bring To you and your sins I'll forgive Come to me, plug it in, so I can digest you I will taste you My appetite in that hole Tempt you with it now I will taste you

Please shake me and tug
I need shaking my love
Can't you be the one?
I can't fake it my love
I need filling come on!
I need it louder than bombs

Come to me, plug it in, so I can digest you I will taste you
My appetite in that hole
Tempt you with it now
I will taste you

Feel that movement my love?
Pulling up from above
Are you listening love?
My emptiness in a way
Is tempting
Guiding you from my gut

Taste you (english version) - 2/2

I will taste you, I've got a big mouth

Oh my love, oh my love
I can't hear you my love
