

## Burn your eyes - 1/1

**Interprété par Oomph!.**

Oh my God all the people in the street  
They look like fucking machines  
Oh my God all the zombies seem to meet  
they all have put on their screens

All my friends are broken toys  
All my friends have lost their voice

I've got to burn your eyes  
Until you feel your lies  
Until you realize you were so blind

Oh my God all the noise inside my head  
It's like a million sirenes  
Oh my God all the zombies start to spread  
I'll save them - by any means

All my friends are broken toys  
All my friends have lost their voice

I've got to burn your eyes  
Until you feel your lies  
Until you realize you were so blind

I've got to burn your eyes  
Until you feel your lies  
Until you realize you were so blind  
I've got to...

Let me burn your eyes (x3)

I've got to burn your eyes  
Until you feel your lies  
Until you realize you were so blind

I've got to burn your eyes  
Until you feel your lies  
Until you realize you were so blind

I've got to...  
(burn your eyes)  
let me burn your eyes...  
(burn your eyes)  
let me burn your eyes...  
(burn your eyes)  
let me burn your eyes...  
I've got to ... burn
