

Under the ice - 1/2

Interprété par Topo & Roby.

Today, year 2106, May 13th from the robots diary.

I decided to store my history in my computer memory.

(...) that made me very sad. I tried to oil my circuits to remember better.

But I found a little (...) on planet earth the humanist call (...)

And now (bip) : I feel much better , I think I will take some more.

Yes ...

ah, oh, ah, eh, mm, (ah, ah, ah)

ah, oh, ah, eh, mm, (ah, ah, ah)

ah, oh, ah, eh, mm, (ah, ah, ah)

ah, oh, ah, eh, mm. (ah, ah, ah)

(2x)

Once upon a time

There was a land so bright

On a planet far away now

A planet full of light.

In the sky you could see spaceships fly

Under seven moons and two suns

They gave it day and night.

ha, oh, ha, eh, hu,

ha, oh, ha, eh, hu,

ha, oh, ha, eh, hu,

ha, oh, ha, eh, hu,

There was once a man

Who had silver hand.

Push the buttons so a spaceship

To come from video land.

Through universe

It then came close to earth

It exploded on the north pole.

A robot survived ...

Under the ice (ouh, ouh, ouh)

Caught like a fool (ouh, ouh, ouh)

Under the ice (ouh, ouh, ouh)

Calling for you.

Under the ice ...

Tudu tudu tudu tudu ...

ah, oh, ah, eh, mm, (ah, ah, ah)

ah, oh, ah, eh, mm, (ah, ah, ah)

ah, oh, ah, eh, mm, (ah, ah, ah)

ah, oh, ah, eh, mm. (ah, ah, ah)

Under the ice - 2/2

Just a robot-man trapped in a foreign land
He was beeping out to someone
To come and give a hand.
He was found, the people got him out :
He was frozen to the circuits and steadily called out.

Under the ice (ouh, ouh, ouh)
Caught like a fool (ouh, ouh, ouh)
Under the ice (ouh, ouh, ouh)
Calling for you.
Under the ice ...

Tudu tudu tudu tudu ...
