So you think that you're alright now  
with your sunglasses on  
Said you're feeling quite safe in here  
But all your friends are gone  
You only listen to electromusic  
Now what the \_\_\_ does that mean

You make me sick  
So sick  
You make me feel  
So sick

Do you think that we're alright here  
Come on tell me, do you feel safe?  
Well I'd love to go places  
We could go and get some  
But then again \_\_\_ not

No I don't really need your phonenumber  
'Cause after tonight it's bye bye  
Said you're feeling so special  
Well hey so do I

You make me sick  
So sick  
You make me feel  
So sick

Looks like all your fun is in your nose  
Just poppin' them pills  
is how your party goes

So sick  
You make me feel  
So sick

You only listen to electromusic  
Now what the \_\_\_ does that mean

You make me sick

Said you're feeling special huh?  
You're feeling allright  
Well so do I
