I have seen the future of mankind  
The wisdom of my prophecies you'll find  
Follow the truth and be careful  
Are we the last?  
Hundred years has passed what have we done  
Inconceivable damage under the sun  
I think it's too late to change the man  
We are the last

World keeps turning while people yearn for more  
Mother nature is crying for a change  
Time will come when we all must pay for what  
We have done, are you prepared for that?

As we are reaching the end  
Of the century there's message we can send  
Be strong and bold and never lose your mind  
Cause we are the last

World keeps turning while people yearn for more  
Mother nature is crying for a change  
Time will come when we all must pay for what  
We have done, are you prepared for that?

The signs of the end I see  
Let them hear my voice in every corner of the world  
Take heed of the warnings that I give  
I have seen the southern cross forming in the sky

There shall be heard in the air the noise of weapons  
And in the same year the divines shall be enemies  
They shall unjustly put down the holy laws  
And by thunder and war true believers shall die  
(Nostradamus: Century IV:43)

For forty years the rainbow shall not appear  
For forty years it shall be seen every day  
The parched earth shall wax drier every day  
And a great flood when it shall appear  
(Nostradamus: Century I:17)

After us the road goes on forever  
Many changes lie along the path

## Visions (southern cross) - 2/2

That's the price we pay for our selfishness  
We are headed for the end

From the skies shall come the powerful kind  
Before and after the Mars reigns at will  
Not far from the great age of Millenium  
Buried ones shall come out of their graves  
(Nostradamus: Century X:72,74)

When the comet tears out the sky  
You and I must die  
After all this the time will come for the chosen ones  
To rise from their graves to be free again

The beast is gone forever there's no more pain  
Instead so many things for us to attain  
The sun is shining brightly after the rain  
The land is green and full of life again

The sorrows wiped away now  
It's time to smile  
And learn from the past  
Together we will try

Twenty years of reign of the moon having past  
Seven thousand years another shall hold his monarchy  
When the sun shall resume his days past  
Then is fulfilled and ends my prophecy  
(Nostradamus: Century I:48)
