

## If it's not with you - 1/1

Interprété par Phoenix.

If it's not with you  
There is no thing that makes wanna settle down  
I thought it was a bad cough  
But never knew how much illusions hide a torture  
Lonesome & forsaken with no gratitude  
Who's goin' to tell, devotion's not your problem  
It's me against a wardrobe  
Focused on the pain to see how we can get along

Doing things, getting better  
I'll move on

Together  
The more I try the less I care about it  
Together  
And if you don't see yourself in the mirror, forget what you did  
Together  
The more I try the less I care about it  
I'm giving up my conscience for another  
The only one I want is you

Things I wouldn't do  
Try to treat me like a friend, get another late call  
I'll lose you for another  
Cause you can't believe how much your pleasure is a factor  
Writing down the logic of my solitude  
As far as I'm concerned I'd like to leave it random  
I'm acting like an orphan  
Let me get to know you better to make me less attracted

Doing things, getting better  
I'll move on

Together  
The more I try the less I care about it  
Together  
And if you don't see yourself in the mirror, forget what you did  
Together  
The more I try the less I care about it  
I'm giving up my conscience for another  
The only one I want is you

Parisians all gone  
Words they're all gone  
Let me tell you  
uh...uh...uh....
