

## Leaves - 1/1

**Interprété par The Gathering.**

i close your eyes with my mouth  
now you don't see anything  
but you feel my breath all over  
i can feel you too

although i don't really know you  
i don't really care

cry with me, make my day  
tomorrow all will be gone  
all the sweetness and all the fun  
no, i don't wanna know...

although i don't really know you  
i don't really care

now that you're gone i don't know  
how to really feel inside  
baring the hope to see you again  
i guess i never will

now that i do really know you  
yes, i really care!
