That's the way of the world
What'cha waiting for?
She has to be loved
Everybody needs somebody

Tell me secrets
Tell me your secret
Tell me why don't you feel
Tell me about reality

Tell me secrets
Tell me sweet secrets
What do you know
What do you know
What do you know about me?
Take me to the other side
Walk the line

See my face just once again
Watch me fall for you
Once more watch me feel
Just like before, running for my life
