

## R.u.ok? - 1/1

## Interprété par Kmfdm.

That's fine with me Don't think I care Do what you want As you see fit That's quite alright It's all ok Just be yourself That's fine with me

For a second you might wonder if it's real

If that's alright Just say ok If that felt good Let's go again

For a moment you might question what you see For a second your whole world will disappear

This is mindcontrol and you know it This will shut you up and you know it

What's wrong with you R.U.OK?
Are you still here
Don't slip away
Just breathe in deep
And stay awake
Don't close your eyes...

That's all you get It's all you need...
