

## Love is all i'm looking for - 1/2

Interprété par Julie Masse.

You and I together  
Two lovers who are one  
You and I together  
Wild and free  
So much better  
Than the best that it could be  
Believing love is, love is  
Diamond roses just for me

The sweetest kiss now  
Can turn the sky to black  
The back of your hand now  
Hits my heart like broken glass  
Never imagined futurefalling  
down  
Flying solo, so low  
Solo underground

Nothing comes from something  
And that I don't deserve  
You brought me to your  
mountain  
Now watch the river curve  
Listen mister...

I am not your baby no more  
Don't like this picture I see  
I believe in my tomorrow  
I am not your baby no more  
I'm not the victim you see  
Just the one who's making  
changes  
I am not your baby

Is there forgiveness  
Is there a right and wrong  
There is compassion  
But I've discovered I'm strong  
I won't surrender to the cellos  
of my heart  
Believing love is, love is  
Till death do us part

Nothing comes from something  
And that I don't deserve  
You brought me to your  
mountain

## Love is all i'm looking for - 2/2

Now watch the river curve  
Listen mister...

I am not your baby no more  
Don't like this picture I see  
I believe in my tomorrow  
I am not your baby no more  
I'm not the victim you see  
Just the one who's making  
changes  
I am not your baby no more  
And I will never be free  
If my soul is compromised  
I am not your baby  
I am not your baby no more

Love baby love  
Love baby yea  
Just give me some love  
It's all i'm looking for  
Give me some love  
Is all that i'm looking for  
Love is all i'm asking for  
Love is all that really  
Matters to me

Give me some love  
Is all that i'm looking for  
Love is all i'm asking for  
Love is all that really matters to me

Oh give me some  
Love baby love  
Love baby yea  
Just give me some love  
It's all i'm looking for  
Give me some love
