

You don't have to worry - 1/2

Interprété par Julie Masse.

Across the fields like a wild
pony running free
My discovery reveals your heart
All this time you will find
The wings of my soul
Never truly lifted me

Until the day that I first saw you
All the little things about you
Now I see the beauty
You and I
You and I
Love is alive

You don't have to worry
You don't have to leave the
light on after me
Don't have to climb the
mountains above
'Cause baby the highest love
Is what you're giving me

I hear the angels calling down
from New Mexico
To watch the sunset dance on
the hills
Red, sienne, violet, amber
colors glow
You can reach up and touch the
big sky

In a desert dry sand dune
Sweet promises under light of a
full moon
And wander forever
You and I
You and I
Love is alive

(repeat chorus)

You don't have to worry
You don't have to leave the
light on after me
You don't have to hurt
anymore
'Cause baby for sure I see

You don't have to worry - 2/2

You don't have to worry
You can always whisper
secrets to my heart
Don't have to climb the
mountains above
'Cause baby the highest love
Is what you're giving me
