

My heaven is your hell - 1/1

Interprété par Lordi.

As the night falls on the town
That's when I rise as day goes down
Trought the dusk-To you I creep
I watch you while you sleep

Free me from my life eternal
There's no blessing in this curse
Night by night it's so infernal
And yet it's getting worse

My heaven is your hell
I'm bound to roam the shadows
The way you shine is killing me
We two cannot be one
My heaven is your hell
And there is no tomorrow
If I'll stay I'll fade away
By dawn I will be gone

As the morning sun will rise
Bringing death I can't survive
I should spread my wings
I should fly
But tonight I choose not to hide

Free me from my life eternal
...
By dawn I will be gone

As the sun
Enters the room
I bid farewells
To life in gloom
It burns my skin
And blinds my sight
I hear you scream
But I can't see your eyes

My heaven is your hell
...
By dawn I will be gone
