

Disconnected - 1/1

Interprété par Lindsay Lohan.

Sleeping awake and awake when I'm sleeping
I've got a dry kind of thirst when drenched
On sunny days all I can see is as shadow
and I'm not above being under
I'm at the brink though I know that I'm empty
I always hide when its my turn to seek
my only believe is not to have faith in believing
before I begin I'm over

(chorus)

Broken off again
and I'm only not lonely when I'm lonely by myself
Numb in pain again I always backtrack forward
cuz all in all, I'm Disconnected

Quietly loud while I'm noisily silent
keep holding my breath while I'm trying to breath
swimming against all of my waves and rapids
I only win when I'm losing

(Chorus)

I just wanna live my life sedated
Cuz I love driving myself away
dysfunctionally sane don't give a damn
I cant comprehend what I understand
Disconnected
broken off again and I'm only not lonely when I'm lonely by myself
numb in pain again I always backtrack forward
cuz all I know I'm Disconnected
