

Symptoms of you - 1/1

Interprété par Lindsay Lohan.

There a good kind of pain
and insane kinda sane (when I'm around you 2x)

There a chill in the heat
Feel the sky at my feet cuz I adore you
I cant ignore you

Chorus:
I'm not ill I don't need to
take a pill to fix what you do
Cure can come through
cuz baby all I do is suffer from
The symptoms of you

There is a left kinda right
There is a blind kinda sight
looking at you 2x
There is no light in the moon and its winter in June
When I'm without you 2x

Chorus

And it trips me off my feet
I think I'm falling in too deep
Do you feel it too

Chorus 2x
