

Kinda i want to - 1/1

Interprété par Nine Inch Nails.

I can't shake this feeling from my head
There's a devil sleeping in my bed
He's watching you from across the way
I cannot make this feeling go away

I know it's not the right thing
And I know it's not the good think
But kinda i want to
I'm not sure of what i should do
When everything i'm think of is you
All of my excuses turn to lies
Maybe God will cover up his eyes

I know it's not the right thing
And I know it's not the good think
But kinda i want to

Maybe just for tonight
We can pretend it's alright
What's the price i pay
I don't care what they say
I want to
I want to (i'll take my chance tonight)
