

# The big come down - 1/1

**Interprété par Nine Inch Nails.**

there is a game i play  
try to make myself okay  
try so hard to make all the pieces all fit  
smash it apart  
just for the fuck of it

bye bye oooh  
got to get back to the bottom  
bye bye oooh  
the big come down isn't that what you wanted?  
bye bye oooh  
find a place with the failed and forgotten  
bye bye oooh  
isn't that really what you wanted now?

there is no place i can go there is no place i can hide  
it feels like it keeps coming from the inside

there is a hate that burns within  
the most desperate place i have ever been  
try to get back to where i'm from  
the closer i get the worst it becomes  
the closer i get the worst it becomes

there is no place i can go there is no place i can hide  
it feels like it keeps coming from the inside
