

You know what you are ? - 1/1

Interprété par Nine Inch Nails.

I tried to sneak myself through
I tried to get to the other side
I tried to patch up the cracks and the holes that I have to hide
For a little bit of time even made it work okay
Just long enough to really make it hurt
When they figured me out and it all just rotted away

Don't you fucking know what you are?

Go on get back to where you belong

You better take a good look because I'm full of shit
With every bit of my heart I have tried to believe in it
You can dress it all up you can try to pretend
But you can't change anything
You can't change anything in the end

Don't you fucking know what you are?

Go on get back to where you belong

Remember where you came from
Remember what you are

Not one of them you belong with

You're only fooling yourself
Go on get back to where you belong
You are not one of them
You belong with us you're only fooling yourself
Come back where you belong back

To nowhere back to nothing
Back to that lonely place inside your head
Come back to where you belong
You're so fucking stupid and pathetic
What you're trying to do
We will never let you go
That was a lie you must have wanted to believe
You didn't really believe that did you?
Well it runs too deep it runs too deep my friend
Better start to look at things through different eyes

Don't you know fucking know what you are?

Go on get back get back get back to where you belong
