

## Remember - 1/1

**Interprété par Skold.**

Doesn't matter if the world stop turning,  
I don't think I'd even care and if God decides to drop the curtain,  
it won't matter much to me Granted clemency,  
I loose myself in apathy Perverse affinity,  
a self induced amnesia No discrepancy,  
my ignorance will set me free Erase my memory,  
I suffocate in hate Lost,  
It slowly went away,  
was gone without a trace  
I'm tired and I can't remember Lost,  
I thought it came to stay and put me in my place  
I'm tired and I won't remember  
Like the night embrace the strange and lonely,  
bring me shelter in the dark  
It don't matter if the sun stop shining,  
it might save me from what's real
