

All of this past - 1/1

Interprété par Sarah Bettens.

Here I go again
Slipping further away
Letting go again
Of what keeps me in place
I like it here
But it scares me to death
There is nothing here
The light is beautiful
But I'm darker than light
And you are wonderful
But this moment is mine
All of this dust
All of this past
All of this over and gone
And never coming back
All of this forgotten
Not by me
I find comfort here
Cos I know what is lost
Hope is always fear
For the pain it may cost
And I have searched for the reason to go on
I've tried and I've tried
But it's taking me so long
I might be better off
Closing my eyes
And God will come looking for me
In time
All of this dust
All of this past
All of this over and gone
And never coming back
All of this forgotten
All of this dust
All of this past
All of this over and gone
And never coming back
All of this forgotten
Not by me
I can see myself
I look peaceful and pale
But underneath
I can barely inhale
I can hear myself singing that song
Over and over until it belongs to me
